### 1. Introduction

GenMix Pro introduces a new feature allows the user to select correctly the formula needed based on his own color chip version.

**P.S: This feature is only available when a color has a colorchip and old formula(s).**

### 2. Step by Step Configuration

- i. Open GenMix Pro Software
- ii. Access the Parameters
- iii. In General section, tick on “Show popup when colorbox is available”.

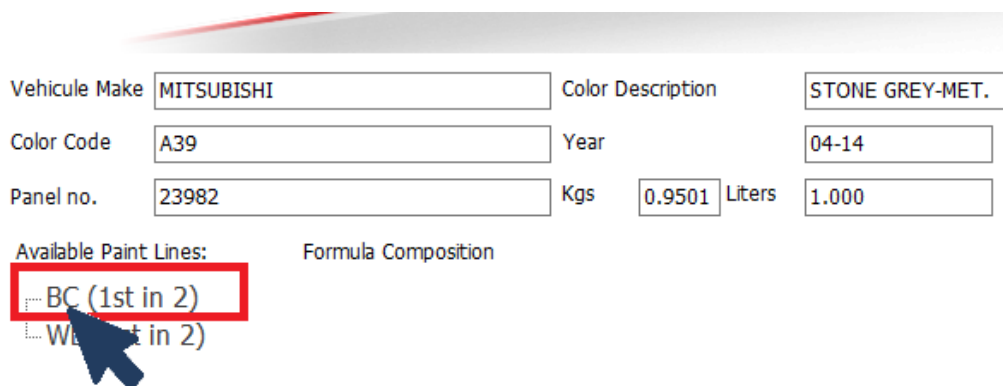

- iv. Click the Save icon

### 3. Example Demo

- a. Select a Panel number
  - i. Search for Panel number: 23982
  - ii. In Mixing System page, Click on the paint line: BC

- b. Select the correct formula
  - i. A popup notification will open at the middle of the screen:

Formulation Date
Aug 11, 2017 (Current)
Nov 27, 2013
Dec 24, 2015
Mar 24, 2016

or search for the revision pertaining to your color chip date at hand

- ii. If you know which revision is related to your chip, click on it, then click on the Enter Button

Formulation Date
